Compilation Part Notice

ADP013326

TITLE: Visualisation of Heterogeneous Military Data in Geographical Information Systems

DISTRIBUTION: Approved for public release, distribution unlimited
Availability: Hard copy only.

This paper is part of the following report:

TITLE: Multimedia Visualization of Massive Military Datasets [Atelier OTAN sur la visualisation multimedia d'ensembles massifs de donnees militaires]

To order the complete compilation report, use: ADA408812

The component part is provided here to allow users access to individually authored sections of proceedings, annals, symposia, etc. However, the component should be considered within the context of the overall compilation report and not as a stand-alone technical report.

The following component part numbers comprise the compilation report:
ADP013309 thru ADP013341

Discussion – Paper 16

Visualisation of Heterogeneous Military Data in GIS

- Annette Kaster (Germany)
- Problems
 - Heterogeneous information environment
 - Variety of task requirements must be supported
 - Different user needs
 - Need to provide military situation display
 - New approaches for visualization tool development -Use of component ware
 - Model View Controller concepts for building next generation visualization systems
 - Window management needs to be studied
 - Consistent user interface principles need to be applied
- VDI 5005 model framework
 - For evaluation of visualization solutions
 - User model, application model
 - Competence support, flexibility

- xIRIS
 - Multi window, multi layer technique
 - Image view
 - Open system architecture
 - Visualization to geo-reference data
 - Dynamic situation display
